Postdoctoral Research Associate in Theoretical Condensed Matter Physics
School of Physics and Astronomy
University of Minnesota

The School of Physics and Astronomy at the University of Minnesota invites applications for a research associate position in theoretical condensed matter physics, with a starting date in the summer or fall of 2020. Applicants are expected to have completed their PhD in physics or related areas before the starting date of the position. The successful candidate will work in the research group of Prof. Rafael Fernandes, and will be expected to interact with the condensed matter experimental groups as well. Specific research topics include, but are not limited to, high-temperature superconductors, vestigial orders, quantum magnets, Mott insulators, and graphene. More information about the group can be found at www.physics.umn.edu/people/rfernand.html

The position is expected to last for up to two years. Please apply online at: https://hr.myu.umn.edu/jobs/ext/333086 (Job ID 333086)

The application material consists of a curriculum vitae, a brief research statement, and the names and complete contact information for three references. Please arrange for three letters of reference to be sent by email to rfernand@umn.edu. Review of applications will begin immediately and will continue until the position is filled.

The University of Minnesota shall provide equal access to and opportunity in its programs, facilities, and employment without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, or gender expression.
